

A New Safety Solution for Healthcare & Hospice

Healthcare workers are 5x more likely to suffer a workplace violence injury than the average American worker.

AlertGPS provides the quickest way to locate, communicate and get help to your home health & hospice workforce.

24/7 protection for your mobile workforce ... wherever they are.

One-Touch SOS

The one-touch SOS button creates a 2-way voice call with our award-winning 24/7 Monitoring Center to dispatch immediate emergency help anywhere in the US & Canada.

How it Works

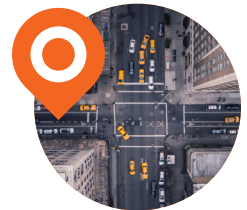

01 — Alert

Press the SOS button on the device or app to immediately initiate a voice call to our 24/7 Monitoring Center

02 — Locate

The user's GPS location is instantly pinpointed & transmitted

03 — Communicate

Our Monitoring Center agent answers the call and assesses the situation. Alerts are simultaneously sent to designated members of your team to provide real-time situational awareness

04 — Respond

Our highly trained agent dispatches emergency services and stays on the line providing reassurance until help arrives

Innovative Technology: The All-in-One Safety Solution

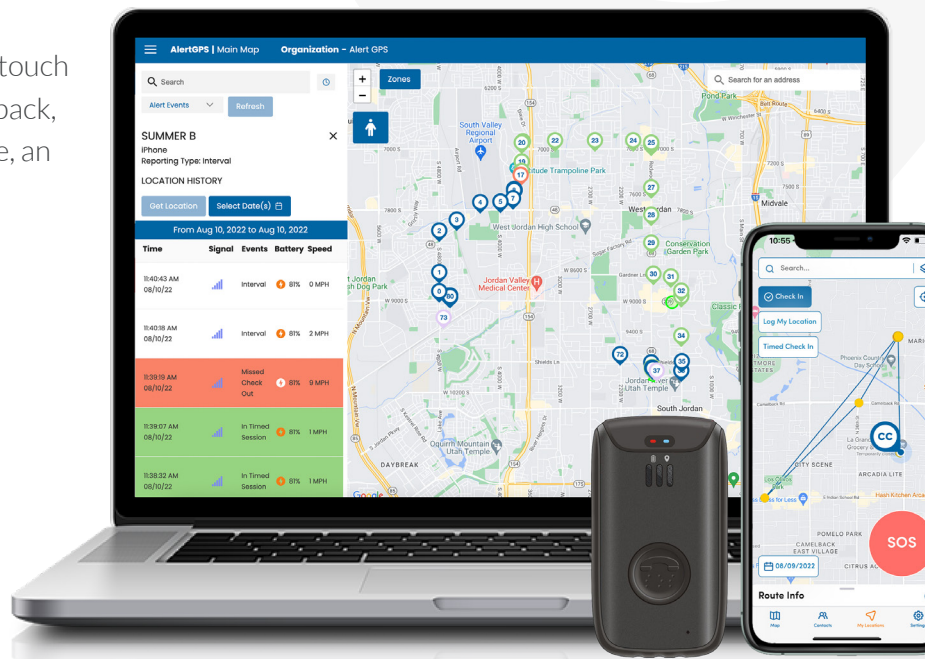

Our integrated solution connects you with your mobile workforce, helping protect your employees and mitigate risks associated with working in uncontrolled environments.

ActiveHalo® Safety Wearable

Small, discreet, easy to use device with one-touch SOS, advanced fall detection with auto call-back, a check in button to report arrival/departure, an audible personal alarm, and much more.

AlertGPS Safety App

Best-in-class safety Apps featuring one-touch SOS alerting and Timed Sessions with Monitoring Center care calls if a missed check out alert is generated. Map views provide instant situational awareness and in-app communication tools keep your team connected.

Secure Alerting Platform

Our cloud-based platform facilitates the flow of information among the team responsible for worker safety. The customizable dashboard is highly intuitive, making it easy to set alerts, generate reports and graphically display the current status of your workforce.

24/7 Monitoring Center

Our agents are trained to handle any emergency situation and can dispatch help (police, fire and EMT) anywhere nationwide + Canada. With companion mode, workers can initiate a call anytime they feel uneasy, for any reason. Our agent will stay on the line until they feel safe.
