

# Perpetual Impact

Working closely with personnel, from entry-level to C-level, CompleteRx breathes life into the pharmacy and the entire hospital environment, impacting not only processes and performance, but culture, patient safety and the bottom line. We can help with a specific issue, provide strong transitional leadership or manage all pharmacy operations moving forward. So let's get started.

## Pharmacy Management

### Managing the Ecosystem

Understanding hospital objectives, along with the daily stresses and demands on your nurses, doctors and administrators, we provide the leadership and resources that align with your culture, drive results and promote peace of mind.

We address every aspect of hospital pharmacy life:

- *Pharmacy leadership*
- *Operational efficiency*
- *Information technology*
- *Regulatory compliance*
- *Clinical support*
- *Quality & safety*

### The Comprehensive Pharmacy Assessment

The assessment presents a clear picture of your pharmacy's patient care, operational efficiency and financial performance. Factoring in your strategic goals, values and culture, we develop and execute a customized plan to:

- *Put the right people in the right roles*
- *Optimize operations*
- *Contain and reduce costs*

Along the way we conduct regularly scheduled business reviews to keep you apprised of our progress, challenges and future plans.

## Transitional Leadership

### Strong Direction in Uncertain Times

CompleteRx often places our own highly qualified transitional leaders in facilities to begin transforming pharmacy operations. This helps stabilize pharmacy systems immediately and can substantially drive down costs and improve patient care.

These are experienced pharmacy directors who know our approach and collaborative culture. They can tap our continuous support systems and resources for help on a range of matters including:

- *IT and automation*
- *Clinical pharmacy*
- *Operations*
- *Regulatory and accreditation*
- *Finance*

## Consulting

### Flexible, Versatile Forms of Impact

We can provide you expertise and resources to bring your projects in on time and on budget with minimal disruptions to ongoing pharmacy operations.

We can perform a comprehensive analysis that covers:

- *Productivity improvement*
- *Drug cost benchmarking*
- *Regulatory compliance*
- *Medication safety*
- *340B services*
- *Quality improvement programs*
- *Technology optimization*

Or call on us to help with specific areas, such as:

- *Automated dispensing systems*
- *Hospital information system upgrades*
- *Computerized physician order entry (CPOE)*
- *Bar code medication verification*
- *Smart pump*

Our capabilities are broad and our approach is flexible, allowing you to customize the level of support you need.

Let us optimize  
your ecosystem.
