

Mobilize your internal workforce

Healthcare organizations need flexible staffing solutions now more than ever. Shifts™ makes it easy to manage and scale your internal resource pool and reduce premium labor costs.

Offer clinicians flexible work opportunities with real-time alerts and in-app communication. Clinicians can claim shifts quickly on the Shifts mobile app, improving fill rates, reducing overtime costs and boosting staff satisfaction.

- ✓ Enable self-scheduling via the Shifts app
- ✓ Integrate with your current time and attendance system
- ✓ Improve fill rates with shift-based incentives
- ✓ Offer clinicians convenience and flexibility
- ✓ Get clear reporting on shift fill rates and utilization

"Shifts offers an app-based approach to scheduling at your fingertips. The partnership has been a phenomenal experience."

Jason Snow, MA, SPHR, SHRM-SCP, Vice President
of Human Resources at Saint Francis Healthcare

Shifts works with your current scheduling system while giving you new ways to automate staffing processes. Clear reporting shows you exactly how and where shifts are being filled, helping you make better staffing decisions.

Whether you're looking to enhance your existing float pool or build a comprehensive flexible workforce program, Shifts provides the tech-driven foundation for success.

Flexible, fast and efficient – the Shifts advantage
