

Per diem staffing on-demand

Streamline per diem staffing with Shifts™, a technology-driven application connecting you to talented staff, per diem gig workers and local agencies. Shifts automatically matches workers to open shifts by availability, competency and skillset.

With Shifts, you can:

- ✓ Release shifts to your local market with the click of a button
- ✓ Gain direct access to the largest talent pool in healthcare
- ✓ Track real-time performance metrics like fill rates, cancellations and trends
- ✓ Communicate with workers via in-app messaging
- ✓ Manage all per diem staffing in one application

Shifts works with your current scheduling system while giving you new ways to automate staffing processes. Clear reporting shows you exactly how and where shifts are being filled, helping you make better staffing decisions.

With **Shifts Sync**, you can easily manage multiple per diem suppliers and expand your local talent pool. Broadcast open shifts to clinicians from multiple per diem agencies and gig workers on one application, ensuring your open shifts get filled quickly.

Healthcare workers using the
Shifts app claim per diem shifts

20% faster
than non-app users!

Flexible, fast and efficient – the Shifts advantage
